

White Water

High Highs

Do you believe
that this will wash away
the fall is colder
you left a letter
come easy

The wild ocean
where you belong with me
but in the moment
and it all gets swept away
you lean in closer
comes easily

It could take you away
it could take you away
it could take you away
it could take you away

Ooh don't leave no
ooh don't say no
ooh come easy
oh we're sailing
away from the world

come easy
oh
