

Temptation Highland

Highland Glory

I'll lead you into temptation
Like sirens call your name
Drawn towards this new sensation
Once more you play the game

Give in to satisfaction
This new attraction
You'll never be the same
You'll never wanna miss
You can't resist
You'll be comin' back again

I'm gonna take you higher
I'm gonna make you scream
Your dark dreams of desire
Surrender to your wildest dreams
Don't try to stop this feeling
The passion in your heart
I'll make you start believing
We'll never be apart

I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true
I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true

In the temple of temptation
The island of your dreams
Mesmerized by seduction
Under my spell of sin

Tonight I own your soul
You lose control
You're ready to release
The urge you feel inside
It can't be denied
You'll do just as I please

I'm gonna take you higher
I'm gonna make you scream
Your dark dreams of desire
Surrender to your wildest dreams
Don't try to stop this feeling
The passion in your heart
I'll make you start believing
We'll never be apart

I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true
I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true

I'm gonna take you higher
I'm gonna make you scream
Your dark dreams of desire
Surrender to your wildest dreams
Don't try to stop this feeling

The passion in your heart
I'll make you start believing
We'll never be apart

I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true
I've been waiting forever for someone like you
I've been waiting forever for my dreams to come true
