

Upperdrugs

Highly Suspect

When I go out
I start searchin' for the upperdrugs
When I wake up
I get scared without my downerdrugs
Fuck

It's last call (last call)
And now I gotta pay for all my shit and then go
Even though
I'm wide awake
So let's go (let's go)
Yeah, I can push you against the wall
I might as well make another mistake

It's not enough
I wanna sleep forever
But I keep wakin' up
But all I feel is the pressure

When you speak (when you speak)
I choke
Because you're remindin' me I'd rather be alone
I wish you would just disappear
And you should know (you should know)
That these chemicals are taking full control
I use them 'cause I'm sick of being here

It's not enough
I wanna sleep forever
But I keep wakin' up
I'm under too much pressure
And it all keeps addin' up
And all we are is sinners
I've had enough
I wanna sleep forever

When we come down
Let's take it easy
When we come down
Let's take it easy
When we come down
Let's take it easy
No (no) never (never)
Never comin' down
(Never comin' down)
No (no) never (never)
Never comin' down
(Never comin' down)
No (no) never (never)
Never comin' down
I'm never comin' back down

And it's not enough
I wanna sleep forever
But I keep wakin' up
I'm under too much pressure
And it all keeps addin' up

And all we are is sinners
I think I've had enough
I wanna sleep forever
And ever

These chemicals are takin' control
Wish I could let them go
These chemicals are takin' control
I wish I could let it all go
These chemicals are takin' control
I wish I could let it all go
These chemicals are takin' control
These chemicals are takin' control
