

Love Just Is

Hilary Duff

When the night won't fall and the sun won't rise
And you see the best as you close your eyes
When you reach the top as you bottom out
But you understand what it's all about

Nothing's ever what it seems
In your life or in your dreams
It don't make sense, what can you do
So I won't try makin' sense of you

[Chorus:]

Love just is... whatever it may be
Love just is... you and me
Nothing less and nothing more
I don't know what I love you for... love just is

When you ask to stay and then disappear
It seems you're gone but you're really here
When every move seems out of place
But every kiss is filled with grace

Some things never get defined
In your heart or in your mind
It don't make sense, what can you do
So I won't try makin sense of you

[Chorus]

Don't ever ask me for reasons
I can't get to you
Don't ever ask me for reasons
Why I live for you... I just do

I just do

[Repeat second stanza]

[Chorus]
