

## Lifeline

Hillsong Young & Free

You took me from the wayside  
And called me Your own  
You've thrown me a lifeline  
And carried me home  
Jesus You're all I want  
You're all I want

Over the horizon  
Is where I look beyond  
You're the silver lining  
Breaking through the storm  
Jesus You're all I want  
You're all I want

A castaway lost in the violent sea  
Drifting away till You rescued me  
You set my feet on solid ground

When I lost my grip love held on tight  
Even my worst didn't change Your mind  
My guilt and shame lost in Your grace

You took me from the wayside  
And called me Your own  
You've thrown me a lifeline  
And carried me home  
Jesus You're all I want  
You're all I want

Over the horizon  
Is where I look beyond  
You're the silver lining  
Breaking through the storm  
Jesus You're all I want  
You're all I want

Runaway heart in the distant land  
I wandered so far still to find You there  
There's no escaping Your embrace

With my hope locked in and my future sure  
My life has a cause worth fighting for  
My soul exists to know Your name

You took me from the wayside  
And called me Your own  
You've thrown me a lifeline  
And carried me home  
Jesus You're all I want  
You're all I want

Over the horizon  
Is where I look beyond  
You're the silver lining  
Breaking through the storm  
Jesus You're all I want  
You're all I want

And oh  
You are my hope  
Jesus forever  
You've forgiven my failures

You are my hope  
You never let go  
Jesus forever  
You've forgiven my failures

You are my hope

You took me from the wayside  
And called me Your own  
You've thrown me a lifeline  
And carried me home  
Jesus You're all I want  
You're all I want

Over the horizon  
Is where I look beyond  
You're the silver lining  
Breaking through the storm  
Jesus You're all I want  
You're all I want

You're all I want  
You're all I want

And oh  
You are my hope  
Jesus forever  
You've forgiven my failures

You are my hope  
You never let go  
Jesus forever  
You've forgiven my failures
