

## Love Without Tears

HIM

As the light across the room flickers  
It's dying song waiting for a  
Reason to keep going on on  
The sweetest wine has now turned bitter  
By these thoughts  
So I wonder  
The darker my home

I should have known  
All along the love without tears  
Just a story told to keep us hanging on  
In the cold all along baby in fear I'd sing  
Love without tears  
Love without tears

A Ghost reside in here  
A boy who can't let go  
Or take no for an answer  
Crying his home

I should have known  
All along the love without tears  
Just a story told to keep us hanging on  
In the cold all along baby in fear I'd sing  
Love without tears  
Love without tears  
Go on and  
Prove me wrong

I should have known  
All along the love without tears  
Just a story told to keep us hanging on  
In the cold all along baby in fear I'd sing  
Love without tears  
Love without tears  
Go on and prove me wrong  
Love without tears  
Love without tears  
Please let me  
Be someone
