

Unleash Carnage

Himsa

all out violence from creators within
and a cleansing slate rehearsed to inflect
dehumanized ambition for keeping safe
fierce rejectors behest of the voices

evaluate the value of living
without being alive
prevailing atomic outcast
blacklisted from their social sifting law to protect

discarded catalyst
a cutthroat in the making to unleash carnage
escaping the fate
forging inspiration in the knife to isolate

silver linings silver settings
enticed from salutations and the siren noise

all out violence from creators within
and a cleansing slate rehearsed to inflect
evaluate the value of living (of living)
without being alive

prevailing atomic outcast
blacklisted from their social sifting law to protect
discarded catalyst
a cutthroat in the making to unleash carnage

every enemy is an antidote
