

## Fading Blues

Hird

As I fall asleep  
You burn down, down in deep  
After all you will know  
I was more, I was warm to go

Come to find it's so wrong  
But there's hope in us all  
I'll fly up, I'll stand tall  
Over you, over you  
Over you

As I fall asleep  
You burn down, down in deep  
After all you will know  
I was more, I was warm to go

Come to find it's so wrong  
But there's hope in us all  
I'll stand up, I'll stand tall  
Over you, over you  
Over you, over you
