

You

Hoku

Everything true
Everything beautiful and new
The lungs that you breathe life into
The hands that you formed raised for you

All that is known
All that in perfect love was sown
Sings with the wind and ocean
Hearts filled to overflowing

For you
Beautiful you
Everything rising up
To you
Glory to you
Halleluiah, Oh Halleluiah

Eyes filled with sight

Trees full of sustenance and light
Order and chaos dancing
Mountains and sky romancing

Hearts in love sigh
Oceans sing sonnets to the sky
Mysterious revelation
Shouting with all creation

To you
Beautiful you
Everything rising up
To you
Glory to you
Halleluiah, Oh Halleluiah

You
Glory to you
Halleluiah, Oh Halleluiah
