

Another Round

Hollywood Ending

You build me up.
You bring me down.
But, you're the girl I can't live without.
You call it off.
You call it on.
But, I can't help being around you.
Nooo

Every minute of every day
You change your mind in every way
You think I'm selfish.
You think I'm great.
I just can't help being around you.
And I'm not leaving without you, girl.

Baby, it's a long way down
It's a long way out of here
But, I'm willing to believe
That maybe if we fly away now
We can hit the ground again
So we can go another round

We get pissed off.
We get along.
Sleep on the sofa.
Sleep in your arms.
You tell me "yes".
You tell me "no"
I just can't help being around you
And I'm not leaving without you, girl.

Baby, it's a long way down
It's a long way out of here
But, I'm willing to believe
That maybe if we fly away now
We can hit the ground again
So we can go another round

I know that we argue
I don't want to
But, I'm telling you
That deep down I love you
I think we can make it another round (2x)

Baby, it's a long way down
It's a long way out of here
But, I'm willing to believe
That maybe if we fly away now
We can hit the ground again
So we can go another round
(2x)
