

# Ghost

## Hollywood Ending

You don't talk to me  
You just look at me weird  
Like you're looking in a mirror

You see right through me  
Like my body is clear  
Cos I'm just a whisper that you never hear

You walk up to me  
But right as you get near  
It's as if I just disappear  
That's so typical to act like I'm not even here  
To act like I'm not even real at all

I'm so frustrated

Cause this is the most I have ever felt for someone else  
It's been such a long time since the last time I fell in love  
Fell in love  
You keep me holding on as I cross over  
Wish I could just wake up and hold ya  
But instead it only gets colder  
When you're dead

I live in misery  
My life's a mystery  
Nobody knows me  
Nobody calls my name

And in basketball nobody passed at all  
Nobody chose me  
Always the last at the wall  
With you

I'm so frustrated  
It's like I'm a ghost  
I feel so jaded

Cause this is the most I have ever felt for someone else  
It's been such a long time since the last time I fell in love  
Fell in love  
You keep me holding on as I cross over  
Wish I could just wake up and hold ya  
But instead it only gets colder

All because of you  
You keep me hanging on  
The only one I knew  
Kept me from moving on

I won't go  
I'm not done  
Can't get left all alone  
Loneliness knows I need you  
The loneliest ghost you'll always see through

I'm so frustrated

Cause this is the most I have ever felt for someone else  
It's been such a long time since the last time I fell in love  
Fell in love  
You keep me holding on as I cross over  
Wish I could just wake up and hold ya  
But instead it only gets colder  
When you're...
