

## Disease

## Hollywood Undead

I need you god so won't you please help me now  
These are the only cards that you dealt me out  
This is the moment that we won't be held down  
Our words are broken but their spoken aloud  
So come together, come together again  
The time is now let Armageddon begin  
They say beginnings always starts with the ends  
I say forever and forever amen

Forget what you are  
Forget what you feel  
Stand apart but fall together  
Nothing ever lasts forever

We're born to live  
We're born to die  
We're forced to swallow these pills  
And to never ask why  
What I've become?  
What can you see?  
That everybody, everybody, everybody's got this disease  
Everybody's got this disease

Feeling my pain  
Hang in the gallows  
Cast the rain  
Feeling so hollow  
Run into shame  
Deep in the shallow  
Not the same but feeling so hollow  
I crashed the train just to start a revolution  
I'm not insane I just want to be free  
It's not the same if it's our execution  
Let them all see you're undead just like me  
So I'm to blame, the one to follow  
Give it away, got nothing to follow  
Fuck the fame, fuck the sorrow  
Live with the day and never tomorrow

Forget what you are  
Forget what you feel  
Stand apart but fall together  
Nothing ever lasts forever

We're born to live  
We're born to die  
We're forced to swallow these pills  
And to never ask why  
What I've become?  
What can you see?  
That everybody, everybody, everybody's got this disease  
Everybody's got this disease  
Everybody's got this disease

I tried to believe, on my knees it's so hard  
And they pick and they pull and they tear you apart  
But they won't let me go

No they won't let me go  
And I'm dying baby, dying baby  
Dying so slow  
Walk in the world, it's so empty and dull  
In the land of the beautiful, beauty is cold  
They won't let me go  
No they won't let me go  
And I'm dying baby, dying baby  
Dying alone

We're born to live  
We're born to die  
We're forced to swallow these pills  
And to never ask why  
What I've become?  
What can you see?  
That everybody, everybody, everybody's got this disease  
Everybody's got this disease  
Everybody's got this disease  
Everybody's got this disease  
Everybody's got this disease
