

Medicate

Hollywood Undead

They say we're dope sick
On in a carousel up in the clouds
I'm feeling so slick
Take a shot if you want, but I ain't coming back down
It's just another day, another one that got away
The kids are never gonna change their minds
They say we're dope sick
'Cause we're dope sick

I try to love myself today
But I hate myself tomorrow
I'm so predictable
It's such a hard pill to swallow

I better meda-meda-meda-medicate
Meda-meda-meda-medicate
Meda-meda-meda-medicate
I might be dying, but I feel just fine

They say we're hopeless
That we're lost and will never be found
We're outta focus
But not another face in the cloud
It's just another day, another one that got away
The kids are never gonna change their minds
They say we're hopeless
'Cause we're hopeless

I try to love myself today
But I hate myself tomorrow
I'm so predictable
It's such a hard pill to swallow

I better meda-meda-meda-medicate
Meda-meda-meda-medicate
Meda-meda-meda-medicate
I might be dying but I feel just fine
I gotta meda-meda-meda-medicate
Meda-meda-meda-medicate
Meda-meda-meda-medicate
I might be dying, but I feel just fine

I might be dying, but I feel just fine
I might be dying, but I feel just fine

I gotta meda-meda-meda-medicate
Meda-meda-meda-medicate
Meda-meda-meda-medicate
I might be dying, but I feel just fine
I gotta meda-meda-meda-medicate
Meda-meda-meda-medicate
Meda-meda-meda-medicate
I might be dying, but I feel just fine
