

Only As Young As You Feel

Holocaust

I'm gonna make you scream and shout
Gonna make your hair stand on end
I'm gonna drive you out your brain
Gonna drive you round the bend

And you're only as young as you feel

I'm young and I'm having fun
And I'm playing in a Metal band
We're making you so happy now
We're making you so you just can't stand

And you're only as young as you feel

I get an itch, I'll take a mile
We're the hottest band in this town
If we can make you smile...
Then I know it's all worthwhile

And you're only as young as you feel

Heavy Metal on the rampage, burning up the street
Make it loud, make it heavy, make it so I'm on my feet
I like bands like AC/DC, I like to headbash every night
I just can't control my feeling...I want Metal all night

I want you to understand this is just the way I am...
It's really healthy in it's way
(Though it wouldn't get me through an exam)

And you're only as young as you feel
