

## Give It Up

Home Grown

You're fadin' out like a stereo  
Your signal's weak and you're feeling low  
She said, "Don't try to think you know what I'm thinking."  
So give it up now, just give it up now

Give it up, whoa  
Give it up now, just give it up now  
Give it up, whoa  
Give it up now, just give it up

It's obvious that you're feeling down  
And you don't want anyone around  
But you know that's exactly what you need  
So give it up now, give it up now

Give it up, whoa  
Give it up now, just give it up now  
Give it up, whoa  
Give it up now, just give it up

Take a chance on stupidity  
And have a seat, come ride with me.  
We'll set a course for anywhere, but here  
So give it up now, just give it up now

Give it up, whoa  
Give it up now, just give it up now  
Give it up, whoa  
Give it up now, just give it up

Don't be afraid to make a mistake  
Don't be afraid to make this mistake  
I'll turn you on like a stereo  
So, take a chance or you'll never know  
The water's deep, but water can't kill you  
So give it up now, just give it up now

Give it up, whoa  
Give it up now, just give it up now  
Give it up, whoa  
Give it up now, just give it up
