

## no song without you

Honne

Ooh  
I'd be nothing without you  
Ooh  
There'd be no song without you  
Without you

When I'm down and out  
And feel like there is nothing left for me  
You save me

Ooh  
I'd feel nothing without you  
Ooh  
There'd be no song without you  
Without you

When I got into a fight  
And you stood right up for me  
You save me, you save me

When I worry 'bout some stupid shit  
You always reassure me  
You save me (You save me)

Ooh  
I'd be nothing without you  
Ooh  
There'd be no song without you  
Without you

(There would be no song without you)  
(There would be no song without you)  
(There would be no song without you)  
(Without you, without you, without you)
