

Come Around

Hoodie Allen

We were so free ridin' with the top down
Now I'm lonely, fading to the background
It's too late for you to come around
It's too late to come around

We was doing so good like last week
Caught us makin' out in the back seat
You were runnin' through my mind like a track meet
Now when I see you around you be lookin' past me

You say that you moved on, well that's swell
Then you beggin' me to come to your hotel
How'd I end up here again baby, but oh well
I tell myself I won't then I let myself down

Everything has changed, I know
It's like it ain't the same, no more
Used to ride the fast lane, shotgun
Now I'm in the backseat, caught up

We were so free ridin' with the top down
Now I'm lonely fading to the background
It's too late for you to come around
It's too late to come around

Said you love me, what you doin' that for?
Now you're slowly creepin' through the back door
It's too late for you to come around
It's too late to come around

I know you think that you can come around and fix things
She call me tom brady, bought that girl like six rings
You fuck me up, you talk a lot, you never listen
Pardon my french, word to Christian
Honey keep your distance
I'm done with all that fake shit you been dishin'
Play your part, get an audition
I wanna thank you for the good times we been missin'
But now I need to find someone to live with

Everything has changed, I know
It's like it ain't the same, no more
Used to ride the fast lane, shotgun
Now I'm in the backseat, caught up

We were so free ridin' with the top down
Now I'm lonely fading to the background
It's too late for you to come around
It's too late to come around

Said you love me, what you doin' that for?
Now you're slowly creepin' through the back door
It's too late for you to come around
It's too late to come around

Woah oh oh
To come around

Woah oh oh oh
It's too late to come around

Woah oh oh
To come around
Woah oh oh oh
It's too late to come around
