I wanna do wrong  
I want you gone  
My eyes are burning red from all  
The tears that i have cried  
Now im watching you with her  
And hatred does occur  
Mean, mean man  
Selfish son of a bitch  
I hope i don't miss  
I'm watching you with her  
But im watching you burn

Eye for an eye  
You sealed my heart with a kiss  
Now i'm taking with it needs  
Lie upon lie  
Nothing left but your cries  
Im taking back what is mine...

Smiles across my face  
Im standing over you and i laugh  
Straight in your face  
Im taking you home  
The girl has found her stone

Cold, cold man  
Selfish son of a bitch  
Im glad i didn't miss  
I'm taking you home  
Now we are all alone

Eye for an eye  
You sealed my heart with a kiss  
Now i'm taking with it needs  
Lie upon lie  
Nothing left but your cries  
Im taking back what is mine...

You came to my home  
With so many needs  
You craved all i had nd i gave in to  
Your every little desire  
You slept in my arms  
And you sucked from lips  
And when everything  
Was taken....

I never cared for guns  
But that night i opened  
The bar keepers box  
And i shot you both down  
A bloody mess of fire  
Was all my heart desired

Eye for an eye  
You sucked my heart dry  
Now i'm taking what is mine

Lie upon lie  
No more hurting crimes  
What's left  
Is for you to cry, oh cry  
You sealed my heart with a kiss  
Now i'm taking what it needs

Eye for an eye  
No longer will i cry  
I'm taking back what is mine.
