

# Move Into Me

Hot Chelle Rae

The lights, are bright,  
The colors dance across the floor.  
And I like, the sight,  
When you move just like I want you to, so.

Come on. come on,  
Lets get closer,  
Ya know, ya know,  
I'll take over.  
The time is right,  
I'll take you there tonight.

Move into me,  
Just lose control.  
The look on your face is telling me 'lets go'.  
Get physical,  
There's no limits so,  
Be who you wanna be.  
Just move into me.

The beat, and the heat  
It's a deadly combination, so,  
Lets leave, the scene.  
Can't believe this tension we've been building

Come on. come on,  
Lets get closer,  
Ya know, ya know,  
I'll take over.  
The time is right,  
I'll take you there tonight.

Move into me,  
Just lose control.  
The look on your face is telling me 'lets go'.  
Get physical,  
There's no limits so,  
Be who you wanna be.  
Just move into me.

Just come with me,  
Lets not waste time.  
We'll come to see,  
What's in our minds,  
Will be just fine.

Move into me,  
Just lose control.  
The look on your face is telling me 'lets go'.  
Get physical,  
There's no limits so,  
Be who you wanna be.  
Just move into me.
