

## Baby Said

Hot Chip

(Do do do, do do do do...)

My baby said she wanted some action  
I said baby, I can't give you that  
I'm a simple man  
My baby said she wanted adventure  
I said baby, the outside world's not safe  
We should sit down  
My baby said she wanted some action  
I said baby, I can't give you that  
I'm a simple man  
My baby said she wanted adventure  
I said baby, the outside world's not safe  
We should sit down

I read all the time about how they fly  
Like children my mind is filled with playtime  
But why must I go out into the cold?  
My life is inside, we're safe, we can hide  
I read all the time about how they fly  
Like children my mind is filled with playtime  
But why must I go out into the cold?  
My life is inside, we're safe, we can hide

My baby said she wanted some action  
I said baby, I can't give you that  
I'm a simple man  
My baby said she wanted adventure  
I said baby, the outside world's not safe  
We should sit down  
My baby said she wanted some action  
I said baby, I can't give you that  
I'm a simple man  
My baby said she wanted adventure  
I said baby, the outside world's not safe  
We should sit down
