

# Motion Sickness

Hot Chip

Remember when people thought the world was round, the world was round?

Remember when people thought the world was round, the world was round?

Everything spins, everything spins on my head

Everything spins, everything spins, everything spins on my head

Everything spins, everything spins, everything spins on my head

On my compact disc

Everything spins, everything spins from my head 'til my motion sickness

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

Remember when we both first felt the world is sound, the world is sound?

Remember when we both first heard the wall of sound, the wall of sound?

Everything locks, everything locks to my grave

Everything locks, everything locks , everything locks to my grave

Everything locks, everything locks, everything locks to my grave and my broken limbs

Everything locks, everything locks to my grave and the life I live

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

Ah oh ooh, ooh, ooh

I am only turning out to you

I am only felt and seen by you

A world I'm in to take within your hands

A world we both take through no contact lens
