

Start a Riot with You

Hotel Books

We'll shut the water off for a couple of weeks
And we'll find a way to pay the rent for the next month
I don't care what it takes to fix these leaks
We'll chase your love and never have to stop

It's cold inside
But I hear it warmin' up
I feel ignited with you
Let's go outside and show them our love
Start a riot with you
It's cold inside
But I hear it warmin' up
I feel ignited with you
Let's go outside and show them our love
Start a riot with you

We can stay on the run forever
We can choose to stay the same
We can finally love together
We can share the same last name
We can do all these things
We can grow old and fall apart

You can only be as strong as you allow yourself to be
And I still have a song and a melody
This in my head I know when I'm dead
I'll be much more than just a strung out anthem
I can only break for so long
I feel my soul creates another swan song
Hoping that I can see this grave never again
And I'll try to behave if you just let me in

It's cold inside
But I hear it warmin' up
I feel ignited with you
Let's go outside and show them our love
Start a riot with you
It's cold inside
But I hear it warmin' up
I feel ignited with you
Let's go outside and show them our love
Start a riot with you

We can stay on the run forever
We can choose to stay the same
We can finally love together
We can share the same last name
We can do all these things
We can grow old and fall apart
...
