

Otis

Houndmouth

I need some love from a Georgia man
Bang it out in Dawson
Get him then I lost him
Part time preacher in the traveling band
That sugar on his shoulder

Oh my otis won't you come back down
On my way but I need a little time
Shook my soul and saved my life
On my way but I need a little time

Sing me up then break my heart
Cigarettes and coffee
Look at the man he's got me
Big O Ranch keeps us apart
And that Tramp from California

Sugar in the morning gotta get on up
Listen to the sound and gotta get on up
