

Chemical Rush

House of Lords

A man can't walk this earth alone
Evolution wrote in stone
Flint axe or a mobile phone
Are nothing if you're feeling alone

I just wanna make love to you
Just tell me what you want me to do
I just gotta get closer to you
And baby you can tell me yeah, yeah

Ooh in the chemical rush
I get tunnel vision
I never get enough
You know I need it
Ooh in the chemical rush
That sweet collision
I never get enough
I need a chemical rush

A man can never break these chains
But I would never try escape
Happy here inside a cell
A prisoner under your spell

Now I'm not thinking 'bout somebody new, no no
Ain't nothing girl that I wouldn't do
I just gotta get closer to you
And baby you can tell me yeah, yeah

Ooh in the chemical rush
I get tunnel vision
I never get enough
You know I need it
Ooh in the chemical rush
That sweet collision
I never get enough
I need a chemical rush

I need a chemical rush, I need a chemical rush
I need a chemical rush, I need a chemical rush
I need a chemical rush, I need a chemical rush
I need a chemical rush, I need a chemical rush

Ooh in the chemical rush
I get tunnel vision
I never get enough
You know I need it
Ooh in the chemical rush
That sweet collision
I never get enough
I need a chemical rush

I need a chemical rush, I need a chemical rush
I need a chemical rush, I need a chemical rush
I need a chemical rush, I need a chemical rush
