

Epic

House of Lords

I'm Hot on your tail
Riding the rail
Baby You Know

You won't get away
My hunger's gotta prey
Ready Set Go

This is not the first time
I have followed you blind
To those places far below

Don't be so afraid of this
This is not the apocalypse
In a world you used to know

Silver bullets are about to fly
We're superhuman not afraid to die
Raise your voice up to the sky

You're my dark angel
Super stars can't fail
Come to save me once again
You're my earth shaking
You're my wave breaking
Let me ride it home again
Baby this is not way it ends

This is not the first time
I have followed you blind
Can't you feel I'm getting close

Don't be afraid to kiss
This is not the apocalypse
Just the one who loves you most

Silver bullets are about to fly
We're superhuman not afraid to die
Raise your voice up to the sky

You're my dark angel
Super star can't fail
Come to save me once again
You're my earth shaking
You're my wave breaking
Let me ride it home again
Baby this is not the way it ends
You're my elevation
Heartbeat celebration
Baby here we go again
You're my sky falling
From the wild calling
Lonely whisper in the wind
Baby this is not the way it ends

Silver bullets are about to fly

We're superhuman not afraid to die
Raise your voice up to the sky
To the sky

You're my dark angel
Super star can't fail
Come to save me once again
You're my earth shaking
You're my wave breaking
Let me ride it home again
Baby this is not the way it ends
You're my elevation
Heartbeat celebration
Baby here we go again
You're my sky falling
From the wild calling
Lonely whisper in the wind
Baby this i not the eay it ends
