

Go to Hell

House of Lords

Go To Hell

Halos off for the night
Let 'em drop, it's alright
No one's gonna see you here

But other volunteers

Soon as we're through the door
Kings and queens all are whores
Though at first you'll think it's wrong
You already belong

You wanted us, you felt our pull,
It's only natural

Anybody with a soul to sell
They wanna, wanna go,
They wanna go to hell
Drawn to where the dregs of heaven fell,
They wanna, wanna go
They wanna go to hell

Shut your eyes, shut 'em tight,
We don't need any light
In the dark, your gonna find
The sin that's on your mind

You wanted us, you felt our pull,
It's only natural

Anybody with a soul to sell
They wanna, wanna go,
They wanna go to hell
Drawn to where the dregs of heaven fell,
They wanna, wanna go
They wanna go to hell

(Guitar Solo)

You wanted us, you felt our pull,
It's only natural

Anybody with a soul to sell
They wanna, wanna go
They wanna go to hell
Drawn to where the dregs of heaven fell
They wanna, wanna go
To Hell!

Anybody with a soul to sell
They wanna, wanna go,
They wanna go to hell
Drawn to where the dregs of heaven fell,
They wanna, wanna go
They wanna go to hell
