

# Hologram

## House of Lords

First you're there then you're nowhere  
You say you care but you disappear  
Like a ghost when I'm alone  
You're somewhere in the air

One touch is not enough  
When I can't get through to you  
You look real but you don't feel  
Like I hunger for you too

Hologram, hologram  
Who you gonna be tonight  
Hologram  
Are you hiding in the light

Oh, everything I saw in you  
Oh, now baby, I see true  
Who you gonna turn to tonight

You fool the eye, you make 'em cry  
You tell no lies but it's all an ilusion  
You make me feel the feeling's real  
Like I am touching you

But one touch is not enough  
When the movie's starring you  
One kiss and I start missing  
The cinematic views

Hologram, hologram  
Who you gonna be tonight  
Hologram  
Are you hiding in the light

Oh, everything I saw in you  
Oh, now baby, I see true  
Who you gonna turn to tonight

One touch is not enough  
When I can't get through to you  
You look real but you don't feel  
Like I hunger for you too

Hologram, hologram  
Who you gonna be tonight

Hologram, hologram  
Who you gonna be tonight  
Hologram  
Are you hiding in the light
