

## Living In Silence

House of Lords

I want to give  
I want to take  
I want to run it down  
There's so much at stake

I want to stand  
I want to fall  
I want to spit it out  
Up against the wall

People  
Can't seem to say a word  
Listen  
Something like nothing is heard

So many people living in silence  
No other choice just living and dyeing  
No one can see it a new kind of violence  
Watching them all just live in silence

I want to run  
Move through sound  
I want to strip away all  
That is found

I want to touch  
I want to hear  
I wanna push away  
And still hold you near

People  
Talking in cinders of sound  
Listen  
Something like nothing is found

So many people living in silence  
No other choice just living and dyeing  
No one can see it a new kind of violence  
Watching them all just live in silence
