

Love Don't Lie

House of Lords

I walk the night alone
Like I'm frozen here in time
Is this love right or wrong?
Still running through my mind

Now I can finally say that I love her
And I'll never have to hide the truth again

Love don't lie, when it's real
Can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie, love don't lie

The days are filled with laughter
And the nights are filled with tears
Love can last a moment girl
It can last a thousand years

Love don't lie, when it's real
Can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie, love don't lie

Guitar Solo

Love don't lie, when it's real
Can't pretend I don't care no more
My heart can't hide how I feel
Love don't lie, love don't lie

Love don't lie, love don't lie
