

# Never Never Look Back

House of Lords

Get up, get up, get up and get away  
Get up, get up, get up and get away

They say it's darkest before the dawn  
And the night will pave the way to the light of day  
But some night you wish that you were never born  
And you want to throw it away, throw it away

Throw it away  
Down the long dark hole where the rabbit will run away  
Into a far better place

Don't turn around  
Don't turn away  
And never, never look back  
There will be a better day  
Go toe to toe  
Go face to face  
And never, never look back  
There will be a better day

Get up, get up, get up and get away

The sun is going down so fast  
It's hard to find your way to the light of day  
When all your dreams are fading fast  
You feel it slipping away, slipping away

Slipping away  
Down the long black hole where the rabbit will run away  
Into a far better place

Don't turn around  
Don't turn away  
And never, never look back  
There will be a better day  
Go toe to toe  
Go face to face  
And never, never look back  
There will be a better day

Don't turn around  
Don't turn away  
And never, never look back  
There will be a better day

Get up, get up, get up and get away  
And never, never look back  
There will be a better day  
Get up, get up, get up and get away  
And never, never look back  
There will be a better day
