

One More

House of Lords

You live in your world
It's none of my business
I know she's your girl
It's none of my business

But if you're talking smack like that about her
That's the one thing I can't let you do
Cuz I'll make sure right now you'll live without her
Right here's the only chance you get
Better show some love and your respect ...cuz

One more, mistake you make
One more, promise you break
One more, night that she waits
She'll be gone
One more, night that she cries
One more, tear in her eyes
One more, little white lie
She'll be, she'll be gone

You play a good game
I see you out creepin'
Son, you got no shame
Your dirty dark secrets

If I find out again that she's been lied to
That's the day you'll end up all alone
Cuz there won't be nobody else to cry to
Cuz here's the only chance you get

Better show some love and your respect ...cuz

One more, mistake you make
One more, promise you break
One more, night that she waits
She'll be gone
One more, night that she cries
One more, tear in her eyes
One more, little white lie
She'll be, she'll be gone

One more
One more
One more

One more
One more
One more

One more, mistake you make
One more, promise you break
One more, night that she waits
She'll be gone
One more, night that she cries
One more, tear in her eyes
One more, little white lie
She'll be gone

One more
One more
She'll be gone
One more
And I'll be [?] so look out
One more, night that she cries
One more, tear in her eyes
One more, little white lie
She'll be, she'll be gone
