

# Stand and Deliver

## House of Lords

I'm sick of looking for the woman you were  
And sicker of your imitation of her  
So bring her back,

Bring her back to me

Give me all your love, and all of your rage  
Give me all you're keeping locked in a cage  
Mama set, mama set her free

Can't take this stranger  
Who thinks of danger  
Of something people oughta fear

I need the rebel  
who saw the devil  
And whispered to I'm over here

Take, take this pain away!  
Get up!  
Stand and deliver!  
No there, there's time to waste  
Get up!  
Stand and deliver!

I used to see you as a gamble take  
And me, your favourite kinda trouble to make  
A year ago in another life

And today instead of pick up a fight  
You forgive, forget and say that I'm right  
Where the hell.  
Where the hell's my wife

I can't take this stranger  
Who thinks of danger  
As something people oughta fear

I need the rebel who saw a devil  
and whispered I'm over here

Take, take this pain away  
Get up!  
Stand and deliver!  
No! There's  
There's time to waste  
Get up!  
Stand and deliver!

I'm missing your insanity  
You got me begging please  
Get up!  
Stand and deliver!

Show me the madness  
The inner badness  
That turned desire into love

I want you twisted  
Damn near sadistic.  
But now it's coming  
It's coming to an end

Just! take, take this pain away  
Get up!  
Stand and deliver!  
No! There's  
There's time to waste  
Get up!  
Stand and deliver!

I'm missing your insanity  
You got me begging please  
Get up!  
Stand and deliver!  
Stand up! Stand up!  
Stand and deliver!

Show me the madness that in a bad mess  
I can turn desire into love, oh yeah  
And won't you twist it in a sadistic  
And now's it's, now it's coming to an end, aw!
