

The Both of Us

House of Lords

Oh you
Look how far you've come
Look at what you've done
You still take my breath away
And you
Showed me to myself
Now there ain't no one else
Could ever love me like you do

When I was broken
You put me back together
So tonight I'm hoping
Baby you remember

You got me forever
Can't change that no never
I'll be here whatever happens
Happens to the both of us
Girl we fit together
Up down pain or pleasure
Rain or shine whatever happens
Happens to the both of us

I know
Times got tough to take
When everything feels fake
You wonder what you're doing here
I know
You've always done your best
So don't you second guess
I'm gonna say it loud and clear

When I was broken
You put me back together
So tonight I'm hoping
Baby you remember

You got me forever
Can't change that no never
I'll be here whatever happens
Happens to the both of us
Girl we fit together
Up down pain or pleasure
Rain or shine whatever happens

Happens to the both of us

After falling down so far
You find out what you're made of
And you get back up
And show them who you are

Whatever happens
Happens to the both of us
Whatever happens
Happens to the both of us
Whatever happens

Happens to the both of us
Whatever happens
Just remember

You got me forever
Can't change that no never
I'll be here whatever happens
Happens to the both of us
Girl we fit together
Up down pain or pleasure
Rain or shine whatever happens
Happens to the both of us

You got me forever
Can't change that no never
I'll be here whatever happens
Happens to the both of us
Girl we fit together
Up down pain or pleasure
Rain or shine whatever happens
Happens to the both of us

Whatever happens
Happens to the both of us
Whatever happens
Happens to the both of us
Whatever happens
Happens to the both of us
Whatever happens
Just remember
