

The Chase

House of Lords

You can't stop a train or rollercoaster
That's what I gotta believe
I'm just so crazy in love
Crazy in love

Everyday I'm one day older
And nothing really matters to me
And I just wanna spend some time
And maybe we could talk all night

You so amaze me now
I got you this time round

The chase is on
Wanna roll with you, baby blue
The chase is on
Wanna roll with you, baby blue

I know there's somebody else that matters
But he don't deserve you at all
He's got his hands on every girl
Every girl in town

And I only think about you
Wondering if you're thinkin' of me
I just wanna spend some time

And maybe we could talk all night

You so amaze me now
I got you this time round

The chase is on
Wanna roll with you, baby blue
The chase is on
Wanna roll with you, roll with you, roll with you
All night long

You so amaze me now
I got you this time round

The chase is on
Wanna roll with you, baby blue
The chase is on
Wanna roll with you, roll with you, roll with you
All night long

Set me loose like a fire
Take me higher and higher
Set me loose like a fire
Like a fire

Come and roll with me, roll with me, roll with me, baby blue
