

Today

House of Lords

Today I woke up and I found you
Today I breathe in life
Today I am free
'Cause you're here with me
Today I, I feel alive

Today I know
Silence is everywhere
Today I know silence

Today the sunrise, today the sunset
Today the Earth spins around
Today I am nothing in this great big world
But I'm something
Yeah, I'm something to you

Today I know
Silence is everywhere
Today I know silence

Today I know what silence is
The silence is everywhere

Today I know
Silence is everywhere
Today I know silence

Well, today I know
Silence is my fate in you
Today I know silence

Today I know silence
It's my fate in you
Today I know silence
It's my fate in you

Today I know silence
Today, today
Today, today
Today, today

Today I know silence
