

If I Say

Howie D

I've been sitting here so long
Thinking how this came to be
Don't know if it's right or wrong
'Cos you're the closest friend to me
You're the one that I would call
When I need somebody there
I know it makes no sense
With words you understand

If I say that I love you
If I told you what's the deal?
If I say that I love you
Tell me how you'd feel
If I say that I love you
Would you look at me the same?
Because I don't want to throw it all away

I always thought I knew true love
But I guess I was deceived
You've been there when times were rough
Now you're the only thing I need
I wanna hold you in my arms
Feel your heartbeat next to mine
I know this makes no sense
But would you understand?

If I say that I love you
If I told you what's the deal?
If I say that I love you
Tell me how you'd feel
If I say that I love you
Would you look at me the same?
Because I don't want to throw it all away

Baby I can't look into your eyes
'Cos I'm scared that you might see
What I feel inside
What you really mean to me
And baby I can't run away
So I really need to know
Need to know

Si te digo te quieroy
Si te digo la razon
Si te digo te quiero
Dime lo que sientas
If I say that I love you
If I told you what's the deal?
If I say that I love you
Tell me how you'd feel
If I say that I love you
Would you look at me the same?
Because I don't want to throw it all away
No I don't want to throw it all away
I don't want to throw it all away
