

School Bell Tango

Howie D

Ring a ling, my clock is yelling for me to arise
But I despise getting up this early
I just wanna stay in bed, don't wanna go to school
What can I do? I'd rather get the flu
Wouldn't you?

Ring a ling, school has now officially begun
This is no fun... It's really boring
I keep looking at the clock but it doesn't seem to move
What can I do? I don't have a clue!

Ring a ling, science class is calling out my name
What a shame... it's so lame
Looking through a microscopic lens
And laughing with my friends at a fruit fly... why!?

Staying home and watching television
Is better than doing long division
I'd rather walk on broken glass
Than spend another minute in a math class

Ring a ling, it's finally time to go outside and play
Yay! It's recess!
Flying like Batman on the swings
Flipping through the rings of the monkey bars

Ring a ling... what?
Ring a ling... it's over?
Ring a ling
No! I just started having fun!
It's time to go!
