=====

Now will you overcome this impression?  
When the life that you lead  
Is second guessing me?  
So you've come for things you left behind  
You left me here with all this on my mind  
I'll be fine

Now I feel so stung  
Now I feel so stung

All I want to feels is affected  
When all you want to be is protected  
And when you realize you're on your own  
The wind can push the sails and drive you home  
This I know

Now I feel so stung  
(you got the best, you got the best of me)  
Now I feel so stung  
(you got the best, you got the best of me)

I can see it come and go  
(can you feel it? we hit the ceiling?)  
You can feel the undertow  
(can you feel?)  
I guess we'll never know

When you realize you're on the shore  
The wind can push the sail and drive you home  
(this I know)

Now I feel so stung  
(you got the best, you got the best of me)  
Now I feel so stung  
(you got the best, you got the best of me)  
Now I feel so stung  
(you got the best, you got the best of me)  
Now I feel so stung  
(you got the best, you got the best of me)  
By you  
By you
