

Like Real People Do

Hozier

I had a thought, dear
However scary
About that night
The bugs and the dirt
Why were you digging?
What did you bury
Before those hands pulled me
From the earth?

I will not ask you where you came from
I will not ask and neither should you

Honey just put your sweet lips on my lips
We should just kiss like real people do

I knew that look dear
Eyes always seeking
Was there in someone
That dug long ago
So I will not ask you
Why you were creeping
In some sad way I already know

So I will not ask you where you came from
I would not ask and neither would you

Honey just put your sweet lips on my lips
We should just kiss like real people do

I could not ask you where you came from
I could not ask and neither could you

Honey just put your sweet lips on my lips
We could just kiss like real people do
