

# Sedated

Hozier

Just a little rush, babe  
To feel dizzy, to derail the mind of me  
Just a little hush, babe  
Our veins are busy but my heart's in atrophy  
Any way to distract and sedate  
Adding shadows to the walls of the cave

You and I nursing on a poison that never stung  
Our teeth and lungs are lined with the scum of it  
Some whiff of this death and guts  
We are deaf, we are numb  
Free and young and we can feel nothing

Something isn't right, babe  
I keep catching the words but the meaning's thin  
I'm somewhere outside my life, babe  
I keep scratching but somehow I can't get in  
So we're slaves to any semblance of touch  
Lord we should quit but we love it too much

Sedated we're nursing on a poison that never stung  
Our teeth and lungs are lined with the scum of it  
Some whiff of this death and guts  
We are deaf, we are numb  
Free and young and we can feel nothing

Darlin', don't you, stand there watching, won't you  
Come and save me from it  
Darlin', don't you, join in, you're supposed to  
Drag me away from it

Any way to distract and sedate  
Adding shadows to the walls of the cave

You and I nursing on a poison that never stung  
Our teeth and lungs are lined with the scum of it  
Some whiff of this death and guts  
We are deaf, we are numb  
Free and young and we can feel nothing

Sedated we're nursing on a poison that never stung  
Our teeth and lungs are lined with the scum of it  
Some whiff of this death and guts  
We are deaf, we are numb  
Free and young and we can feel nothing
