## Some of My Lies Are True (Sooner or Later)

## **Huey Lewis & The News**

Say you want to be a friend of mine See me all the time You don't care what I do But it all sounds the same to me

Hey, can't you see
It's just like I told you

I know you think that I've
Been stringing you along
And that I've told you a few but

Sooner or later when you say I love you You're gonna realize that
Some of my lies are true

I never told you that I was the one Said it just for fun
You know, you knew it too
So why so much on the telephone
I'm never home

It's just like I told you

Because it's real the way you used to make me feel

It makes it so hard to say

But nothing can change the way I feel today

Don't you see that

Because it's real the way you used to make me feel It makes it so hard to say but Nothing can change the way I feel today Don't you see that

[Chorus: x3]
