

Friends Of Mine

Hugh Dillon

Wondering where I've been
Been watching the sun go down
Took care of everything
And now I'm back around
I finally got it sorted
You've heard it a thousand times
And you can check that story
You know they're no friends of mine
Never thought I'd take the time
Thought I'd said goodbye
Thought I'd left it all behind
The pages of my life

And maybe it's not that pretty
It's just a place in time
Those days are gone forever
And so are those friends of mine
And if you check that story
You'll find out I'm comatose
Nobody would have thought it
But that's how the garden grows

Never thought I'd trace the lines
Thought I'd said goodbye
Sure I left it all behind
The pages of my life
And I've looked everywhere
I looked inside myself
And if you sing it softly
The coin hits the wishing well
Ya I've looked everywhere
I've seen right through myself

And if you sing it softly
It's not just an undersell
Well I took a left off Broadway
That's where the story's told
I love the hip hop music
And low budget rock and roll
Well maybe we'll hook up Tuesday
If not then I'm good to go
I love the hip hop music
Way down in the undertow
Wondering where I've been
Been watching the sun go down
Took care of everything
And now I'm back around
Finally got it sorted
You heard it a thousand times
And if you check my story
You know they're no friends of mine

Never thought I'd take the time
Thought I'd said goodbye
Thought I'd left it all behind the
Pages of life
Maybe it's not that pretty

It's just a place in time
Those days are gone forever
So are those friends of mine
Never thought I'd take the time
Thought I'd said goodbye
Never leave it all behind
Pages of my life
