

Ten Feet Tall

Hugh Dillon

The way she walks
It's like she's ten feet tall
She's got a sound
Coming through the wall
She's got a vibe
She'll kick it down the hall
She's got the whole damn thing
Finger on the pulse
She's got a mind
Throw it in the air
I've got a signal
You know I'm already there

Don't need to bleed that star
Just to figure it out
Don't always need to know
What it's all about
Maybe break your back
Maybe knock you out
You know there ain't no one here baby
But yourself

She got it all
You know it's blowing my mind
She's got a beat
She's never behind
And I believed her
I see it in her eyes
She had to make me laugh
Before she made me cry
She got a mind
Throw it in the air
I got a signal
You know I'm already there
