Fade Away

Hughes Turner Project

I'll be there when the darkness falls Everywhere when the shadows call Hear the wind, how it cries your name Don't you worry, there's no one to blame

Why, oh, why can't I be free? There's only emptiness inside of me 'Cuz in my heart I know you'd never stay Tell me how long does it take For love to fade away?

I let you slip right through my hands Now I try for a second chance I never wanted to let you go And now there's one thing you should know

Why, oh, why can't I be free? There's only emptiness inside of me 'Cuz in my heart I know you'd never stay Tell me how long does it take For love to fade?

Why, oh, why can't I be free? There's only emptiness inside of me 'Cuz in my heart I know you'd never stay Tell me how long does it take?

Why, oh, why can't I be free? There's only emptiness inside of me 'Cuz in my heart I know you'd never, never stay Tell me how long does it take For love to fade?

For love to fade away Away, away, away

I'll be there when the darkness falls As your love

Have you ever tried to call? Have you ever noticed? [Inaudible]
