## **Mystery Of The Heart**

## **Hughes Turner Project**

The time has come again
Throw a kiss and lose a friend
Some things are just better left in the past
Tomorrow never knows
Passes by, comes and goes
Can you tell me how long will love last?

I'll remember you and me And how it felt inside I guess it wasn't meant to be But it's so hard to say goodbye

Why do the winds of change carry us away? They leave us lost and torn apart What are we searching for, never sure Wanting more?
Maybe that's the mystery of the heart

Love is rare and life is strange Nothing lasts and people change Memories that time just can't erase

Wish I could go back, I know
How I want to hold you so
I'd give anything to see your face

Lonely dreams of yesterday Like footprints in the sand Wish that I could find a way But I'll never understand
