

Child of War

Human Fortress

There's nothing I can hear
No one I can see
Nothing that I can feel
That's the way I'd like to be

There were many things to bear
Shed tons of tears
Too much havoc and crime
Deep inside of my mind

You can't heal me - wear me down
No one can free me - I have a mind on my own
You can't heal me - no you don't
I'm just a lonely soul - a child of war evermore

Always walking all alone
Dine on my own
Feel empty inside
I'm restless at night

That's my struggle for life
It tears me apart
Though never say die
I'm the one to get by

You can't heal me - wear me down
No one can free me - I have a mind on my own
You can't heal me - no you don't
I'm just a lonely soul - a child of war evermore
