

Martial Valor

Human Fortress

By a cruel twist of fate
Defeated in a moonless night
They came out of nowhere
In this fight I feel abased
Wake me up and hold me tight
It's hard to believe it

Now I lapse into self-doubt
Regard it as an enemy
Or just an illusion
Imprudently I scream and shout
Aggressions are inside of me
Like human nature

Believe in valor
Martial Valor
Work up the courage I do
I am fighting for you
Believe in valor
My martial valor
Work up the courage I do
Outrageous deeds can't get through
Martial Valor

On a predatory trace
Follow on your path of blood
It's glueing on your blades
I take vengeance oh I swear
Certainly you curse the day
Of cowardice

Believe in valor
Martial Valor
Work up the courage I do
I am fighting for you
Believe in valor
My martial valor
Work up the courage I do
Outrageous deeds can't get through
Martial Valor
