

# The Wizard

## Human Fortress

My lord save me  
Thy son, thy blood  
With evil thoughts in mind  
So dark, so black  
A fallen one

(Oh black wizard)  
Oh wizard in your hollow  
Repent your sins  
And beg for our grace  
Pray, pray  
Wizard in your hollow  
Repent your sins  
Or never leave this place

Hear my warning or you will die  
Don't turn away, reveal the masterplan - now!

Confess, reveal  
We bless, we heal  
Change your fate  
Before it's too late

What happened to me, what have I become?  
A black shadow's son, a darkness in me  
But there's no way back and soon I will be free

Lord give me strength  
For heart and Soul  
With hatred in my eyes  
So cold, so cruel  
I'm the one

Black wizard in your hollow  
Repent your sins  
And beg for our grace  
Pray, pray  
Wizard in your hollow  
Repent your sins  
Or never leave this place

Hear my warning or you will die  
Don't turn away, reveal the masterplan - now!

Confess, reveal  
We bless, we heal  
Change your fate  
Before it's too late

What happened to me, what have I become?  
A black shadow's son, a darkness in me  
But there's no way back and soon I will be free

There will be no grace(oh wizard in your hollow)  
You'll never leave this place(oh wizard in your hollow)  
There will be no grace(oh wizard in your hollow)  
Never leave this place - now you die

Black wizard in your hollow  
Repent your sins  
And beg for our grace  
Pray, pray  
Wizard in your hollow  
Repent your sins  
Or never leave this place
