

Good Enough

Human Nature

If I take you back in the room
Spin you around, my baby
Take off your clothes, all of mine too
Lay you down, wanna lay you down
We can be discreet, nobody has to know
(woah) We don't need no sheets
We can just close the door my baby
I can take you places you ain't been before
As soon as we get there baby, you'll be coming back for more

If it ain't good enough, good enough baby (baby, baby)
I'll work harder (I'll work harder)
I'll keep pumpin' every minute girl
And baby I'll do you up (do you up baby, baby, baby)
And I will not stop 'till I know you're hot

If I touch your body tonight
will you touch mine?
(Touch my body, baby, touch my body)
Kiss both your lips and rub on those thighs
Taste your wine, let me taste your wine

I can do it soft or i can do it hard
Oooh, I can make you scream if you let down your guard, my baby
It's not too far from here to ecstasy
I know you want good lovin'
So lay your body next to me

If it ain't good enough, good enough baby (baby, baby)
I'll work harder (I'll work harder)
I'll keep pumpin' every minute girl
And baby I'll do you up (do you up baby, baby, baby)
And I will not stop 'till I know you're hot
