

Love Is A Fire

Human Nature

Every time I look into your eyes
Every time you call my name - yeah
Every time you throw a smile at me
Every time I feel the same
That this is forever
That I'm not afraid
Nothing's gonna take it away

Love is a fire
Love is an ocean
Love is the way you set my heart in motion
Love is a higher burning desire
And the fire must be real
'Cause love is all I feel

Every time you take me by the hand
Every time we're making love - yeah
Every little thing you do to me
Well I can't get enough every time that we touch

This is forever
And I'm not afraid
Nothing's gonna take it away

Love is a fire
Love is an ocean
Love is the way you set my heart in motion
Love is a higher burning desire
And the fire must be real
'Cause love is all I feel

I used to run but I'm running no more
'Cause this is all I've been searching for
It took some time but now that you're here
I want you to know- I'll never let you go

Love is a fire
Love is an ocean
Love is the way you set my heart in motion
Love is a higher burning desire
And the fire must be real
'Cause love is all I feel
